New Book Details How Faith-Driven Americans Can Deploy Truth to Change the Direction of our Society in Crisis

Dr. Jeff Myers' New Masterpiece—"Truth Changes Everything: How People of Faith Can Transform the World in Times of Crisis"—Offers Historical Insights on How Christian Movements Have Changed the World in the Past, and Can Do it Again Right Now

(Manitou Springs, CO—October XX, 2022) Summit.org, America's leading organization equipping young adults in God's truth and championing a biblical worldview, is announcing the launch Dr. Jeff Myers' new book *Truth Changes Everything: How People of Faith Can Transform the World in Times of Crisis* from Baker Publishing.

"More than half of Americans of all ages now believe that truth—rather than being objective for everyone—is up to the individual. This belief holds across all identifiable social and political groups. Even among churchgoing, self-identified Christians, the percentage who believe that truth can be known has shrunk to around 50 percent," said Dr. Jeff Myers, President of Summit.org and author of *Truth Changes Everything*. "Ideas have consequences, and the growing chaos in our society and around the world is the direct result of this false way of thinking. In the book, I detail when and where we've seen this before, and how truth can combat and defeat this failed philosophy and restore flourishing and freedom. We know this because it's already been done before, and Christians are once again in a unique position to do it again."

Truth Changes Everything: How People of Faith Can Transform the World in Times of Crisis shares the stories and breakthroughs of thinkers and doers who committed their lives to Truth. It demonstrates how faith forms a personal moral code and a transformational worldview that changes the course of history, and details how world changers from history—who were committed to God—emerged as history’s best philosophers, scientists, artists, and educators, especially so in times of great crisis, when history seemed at its end.

A biblical worldview based on the Bible and the writings of Christian thinkers throughout history has rested firmly on the idea that Truth can be known. The book revolves around two goals. The first is to explore the difference between the Truth viewpoint and the truths viewpoint. The second is to answer the “So what?” question. Why does Truth matter?

Key Endorsements:

"Pilate's piercing question to Jesus, 'What is truth?' resonates perhaps even more today than the day he asked it. In *Truth Changes Everything*, Dr. Jeff Myers answers that question. What's more, he tells us why what we believe about truth matters so very much. Readers will be challenged, encouraged, and strengthened by his life-changing message." **Steve Green**, president of Hobby Lobby

"Dr. Jeff Myers has a unique gift for communicating the universal, unchanging Truth of the gospel. This insightful book shows the importance of biblical Truth, traces many under-appreciated ways in which Christians throughout history have impacted the world by living out that Truth, and gives practical advice for influencing our neighbors with the Truth that sets us free." **Jim Daly**, president of Focus on the Family

"Dr. Jeff Myers skillfully demonstrates how Christians' manifestation of God's surpassing goodness in all facets of life and civilization provides powerful evidence for the Truth of Christianity and the Bible, on which our faith is based. This Truth, indeed, changes

everything, and in the best way imaginable." **Hugh Ross**, astrophysicist; founder and president of Reasons to Believe

"As an actor and filmmaker, I love good stories. And my friend Dr. Jeff Myers' book Truth Changes Everything is bursting with fascinating true stories of people who loved Jesus so much they could not help but change the world in everything from science to the arts. No matter how tough times are, we can do the same. If your faith and sense of purpose need a boost, I encourage you to pick up this book right away." **Kirk Cameron**, actor and filmmaker."
